Summary — Results-driven Full Stack Developer with a strong foundation in Java, Spring Boot, and React.js. Proven experience designing and implementing scalable, secure, and user-focused applications. Passionate about optimizing system performance, implementing Agile practices, and integrating modern web technologies to deliver efficient digital solutions.

Skills

- **Languages:** Java, JavaScript, HTML5, CSS3
- **Frameworks/Libraries:** Spring Boot, React.js, Express.js
- **Databases:** MySQL, OracleDB, MongoDB
- **Frontend Tools:** Bootstrap, JSP, REST APIs
- **DevOps/Deployment:** Git, GitHub, Postman, VS Code

Internship

Infosys Springboard   *Web Developer Intern — Jun 2024 – Aug 2024*

- Developed and enhanced secure media upload and search modules using Spring Boot and Hibernate.
- Improved backend performance by optimizing database queries, reducing response time by 30%.
- Collaborated with cross-functional teams to integrate user-centric features aligned with project objectives.
- Delivered mission-critical modules under tight timelines, ensuring successful sprint completions.
- Adapted quickly to evolving requirements, demonstrating initiative and flexibility in a dynamic Agile environment.

Education

Walchand Institute of Technology, Solapur, MH   *2021 – 2025*
B.Tech in Computer Science and Engineering
CGPA: 9.04 / 10
Tiny Tots English Medium School, Tundla, UP   *2020 – 2021*
Higher Secondary Certificate
Percentage: 72.66%

Projects

Flight Management System

- Engineered secure login using Spring Security, improving data protection by 30%.
- Developed booking and admin modules with role-based access, boosting operational efficiency by 25%.
- Implemented advanced flight search and filtering features, enhancing user navigation and experience.
- **Stack:** Spring Boot, Spring Security, MySQL, HTML, CSS, JavaScript, JSP

Manage Mate – Task & Project Management Platform

- Built task and project management system supporting real-time collaboration and secure access control.
- Boosted API efficiency and response time by 30% by optimizing backend logic and MongoDB queries.
- Integrated WebSockets for instant notifications and project updates, improving communication workflows.
- Enabled deadline assignments, task prioritization, and dependency tracking for smooth project execution.
- **Stack:** React.js, Node.js, Express.js, MongoDB, WebSockets

Certifications

- **Java Developer Certification:** Mastery in OOP, collections, interfaces, exception handling.
- **Database & SQL Certification:** Proficient in query design, joins, normalization, and modeling.
